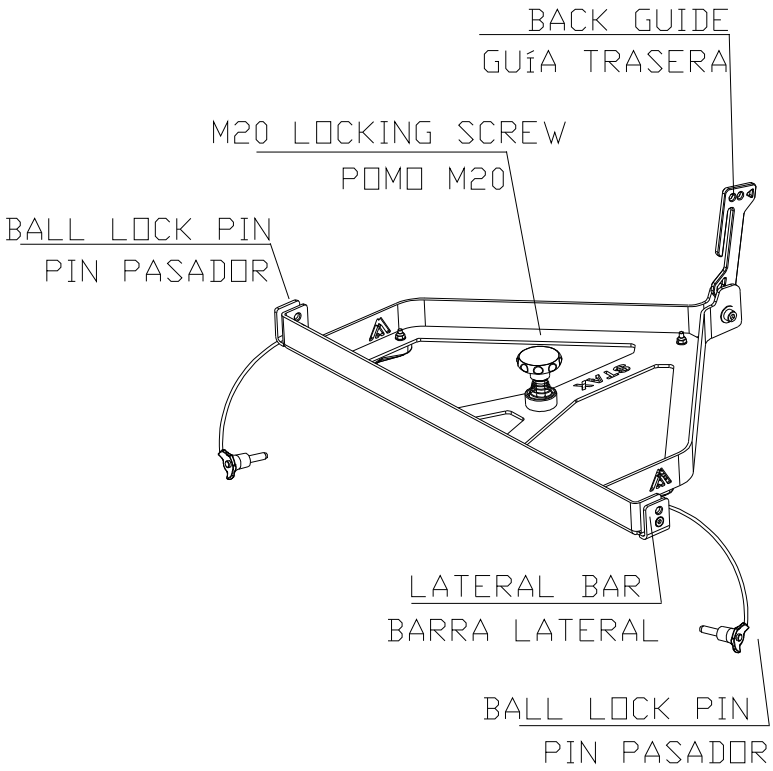
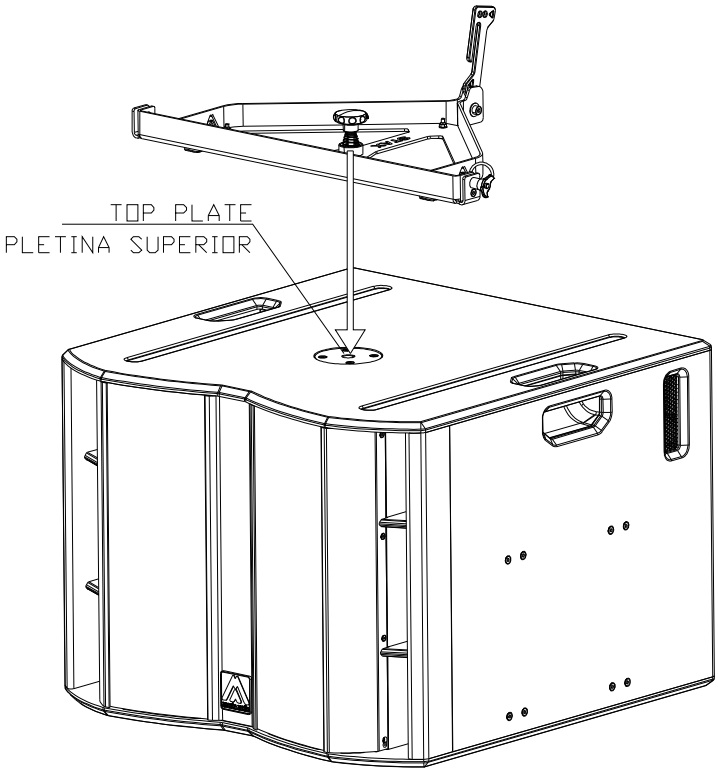
- The STAX is an optional accessory for stacking the XA209 / XA209P / XA211 / XA211P on XW118 / XW218 / XW215 subwoofers.

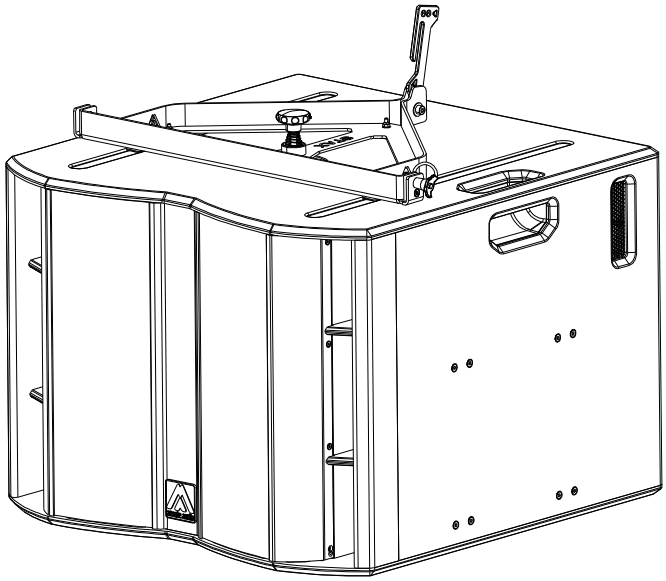
~ El STAX es un accesorio opcional para el stacking de la XA209 / XA209P / XA211 / XA211P sobre los subwoofers XW118 / XW218 / XW215.



- Place the STAX stacking frame on the XW118 subwoofer*. Lock it with the M20 locking screw.

~ Colocar la estructura de stacking STAX encima del subwoofer XW118. Blocar la estructura STAX mediante el pomo de fijación de M20.*



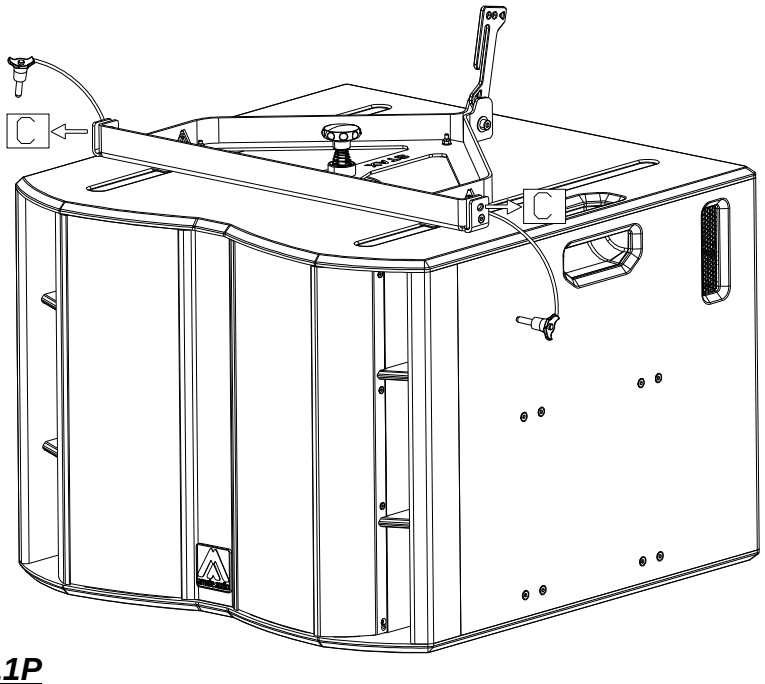


- *(*the same way for XW218 / XW215 subwoofer)*

*~ (*lo mismo para el subwoofer XW218 / XW215)*

- Release the ball lock pins of the STAX frame (C).

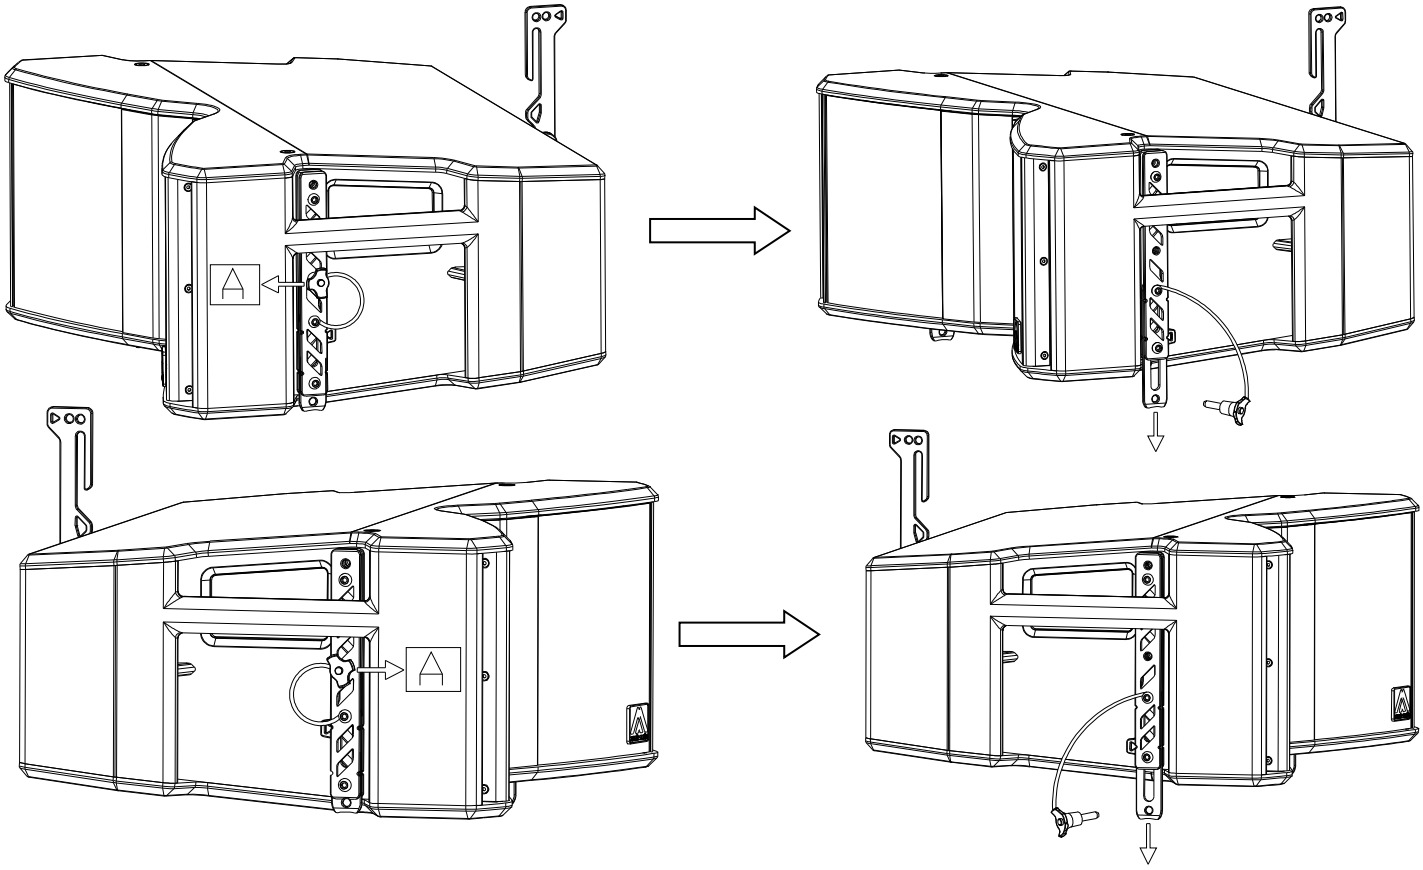
~ Libere los pines pasadores del frame STAX (C).



XA211 / XA211P

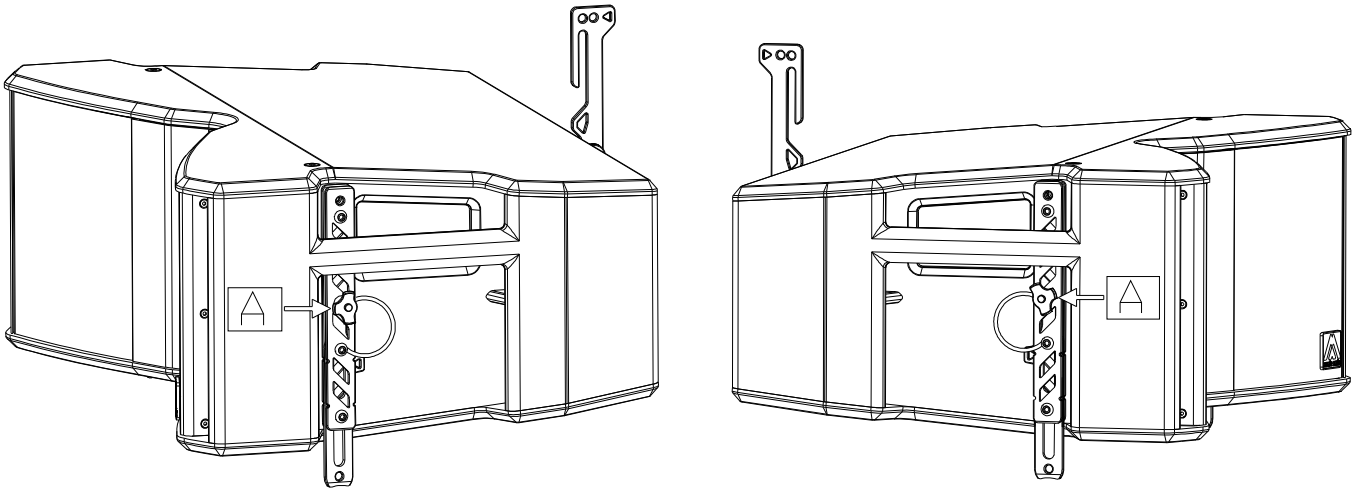
- Release the ball lock pins (points “A”). The front bars of the XA211/XA211P cabinet will move down.

~ Libere los pines pasadores de los puntos “A”. Las barras frontales de la caja XA211/XA211P se desplazarán hacia abajo.



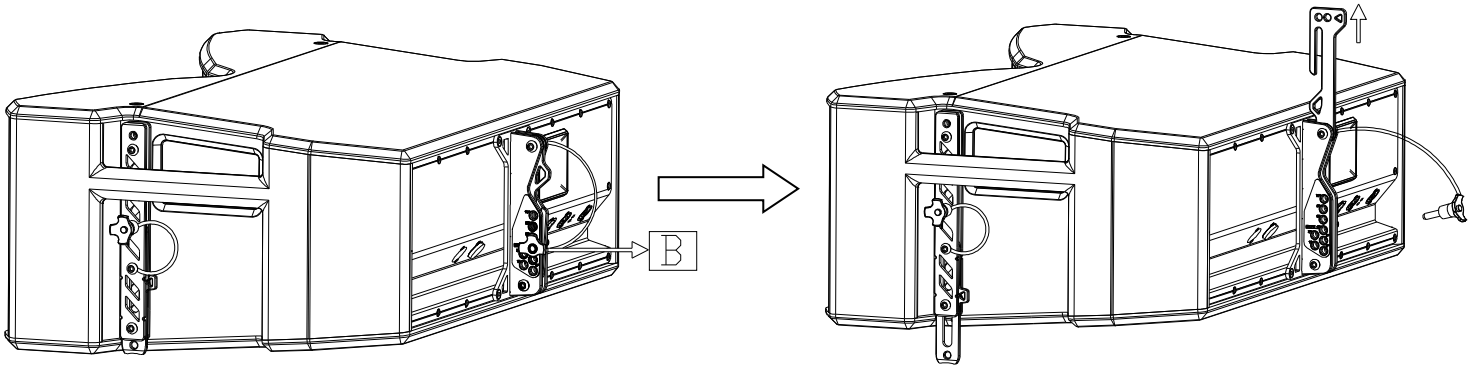
- Set the pin on its “store” position again (A)

~ Coloque de nuevo el pin en su posición de reposo (A)



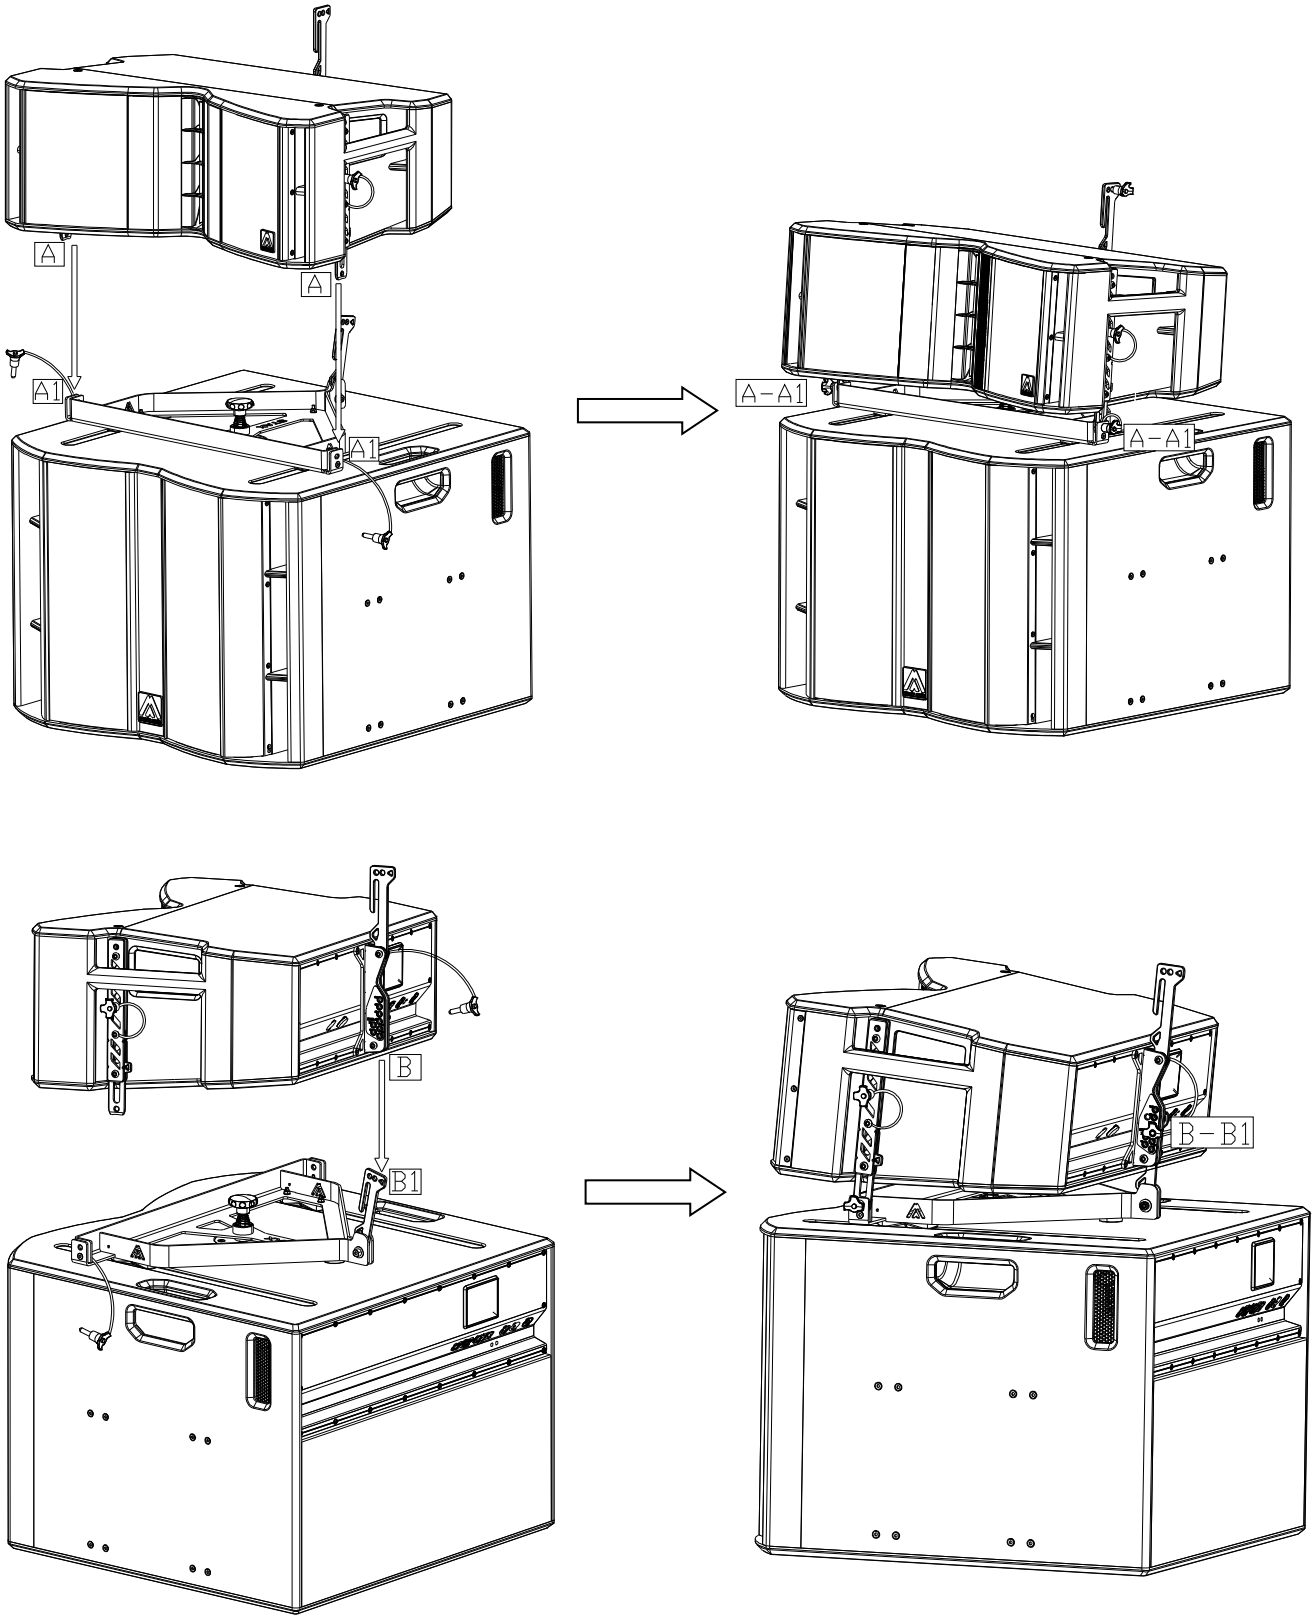
- Release the ball lock pin (point “B”). Flip up the rear bar of the XA211/XA211P cabinet.

~ Libere el pin pasador del punto “B”. Coloque hacia arriba la barra trasera de la caja XA211/XA211P.



- Set the first XA211/XA211P cabinet on the STAX lateral bars and back guide (join points A-A1 and B-B1).Use the two front STAX ball lock pins and the back XA211/XA211P ball lock pin to fix both structures*.

*~ Coloque la primera caja XA211/XA211P encima de la estructura STAX (unir los puntos A-A1 y B-B1). Fije ambas estructuras mediante los dos pines pasadores frontales de la estructura STAX y el pin pasador trasero de la caja XA211/XA211P *.*



- **the same way for XW218 / XW215 subwoofer)*

~ *(*lo mismo para el subwoofer XW218 / XW215)*

- Choose the desired angle for the first cabinet.

~ Escoja el ángulo deseado para la primera caja.

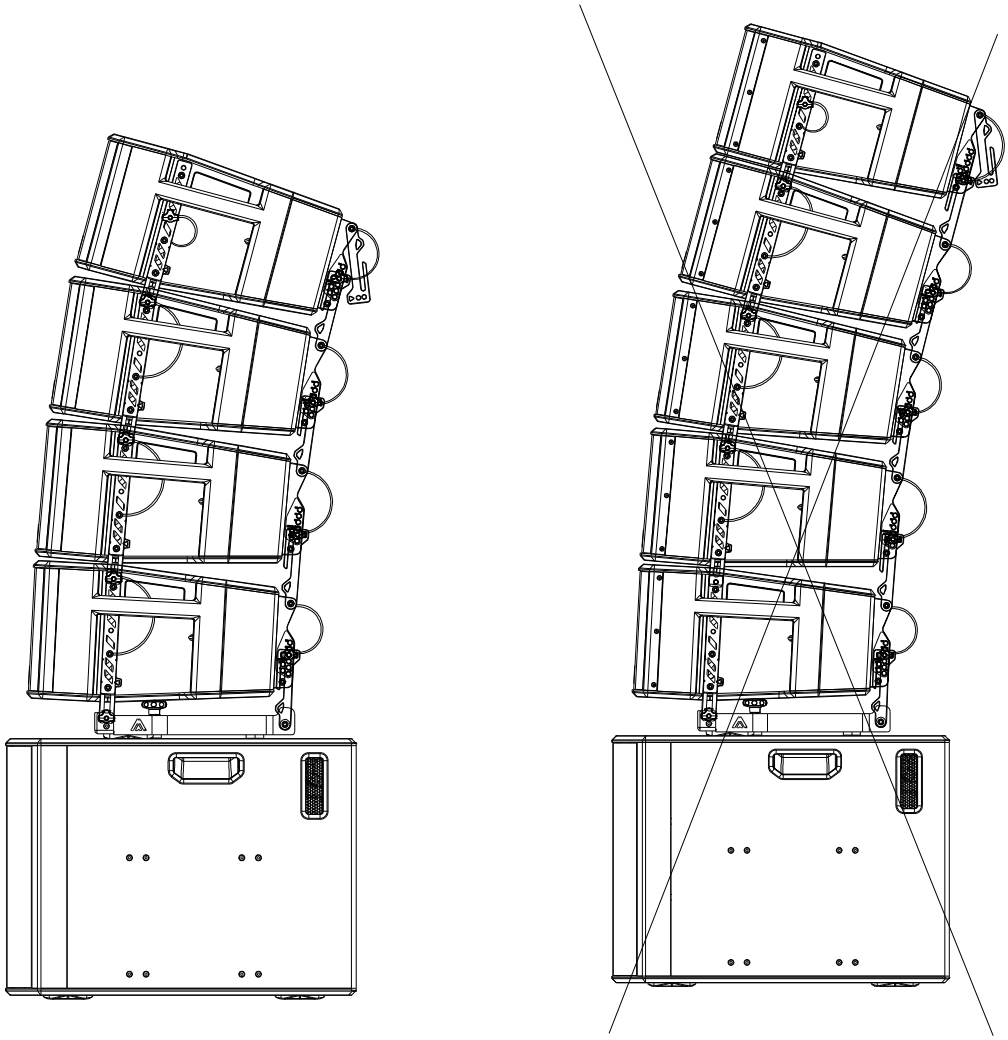
- Set the rest of the XA211/XA211P cabinets over the first unit of XA211/XA211P and tilt them as per your requirements.

~ Coloque las siguientes unidades XA211/XA211P encima de la primera unidad XA211/XA211P y graduar según las necesidades.



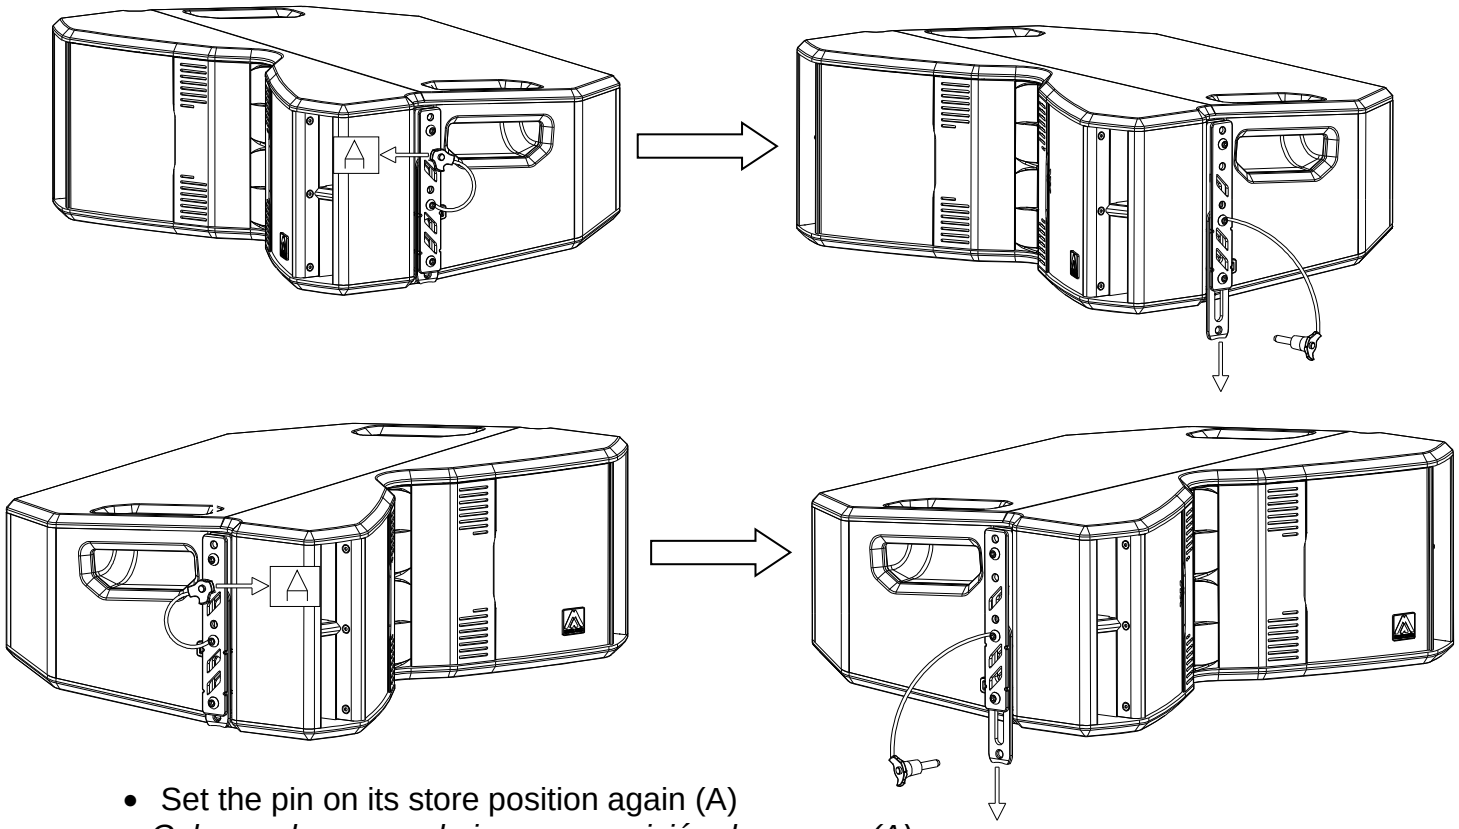
- **IMPORTANT NOTE:** To avoid any instability **DO NOT** stack more than **FOUR** units of XA211 / XA211P on XW118 / XW218 / XW215 subwoofer.

~ ***NOTA IMPORTANTE****: Para evitar posibles desestabilizaciones debidas a la altura que alcanza el sistema completo* **NO** apile más de **CUATRO** unidades XA211 / XA211P sobre el subwoofer XW118 / XW218 / XW215.

XA209 / XA209P

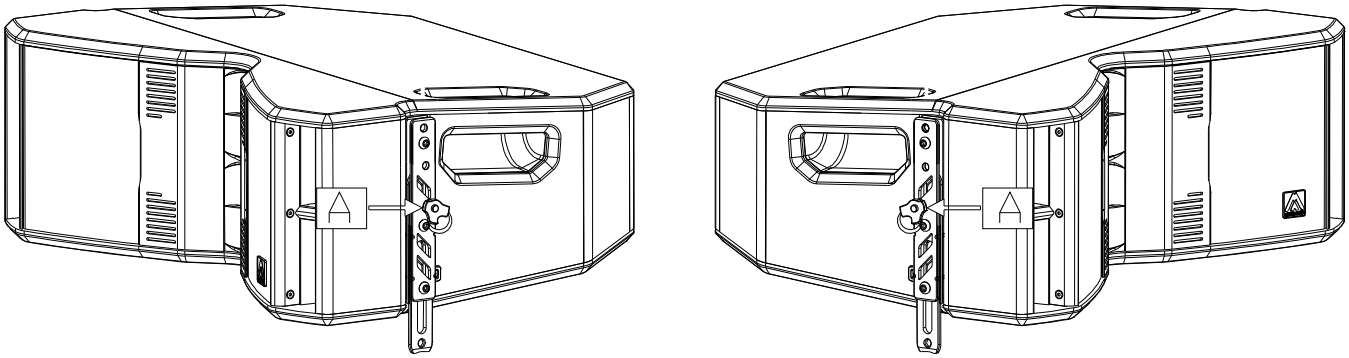
- Release the ball lock pins (points “A”). The front bars of the XA209/XA209P cabinet will move down.

~ Libere los pines pasadores de los puntos “A”. Las barras frontales de la caja XA209/XA209P se desplazarán hacia abajo.



- Set the pin on its store position again (A)

~ Coloque de nuevo el pin en su posición de reposo (A)



- Release the ball lock pin (point “B”). Flip up the rear bar of the XA209/XA209P cabinet.

~ Libere el pin pasador del punto “B”. Coloque hacia arriba la barra trasera de la caja XA209/XA209P.
